## **CompuTech City announces new facility in Longwood**

**Orlando, Fla.** – CompuTech City, a local medical IT services company, is expanding operations and breaking ground on its new state-of-the-art company headquarters facility in Longwood. The expansion will result in 35 new local, high-wage jobs over the next three years and a capital investment of \$2,500,000. Located on a two-acre site, the new 10,000 sq ft. headquarters are built to promote wellness. This environmentally friendly and self-sufficient building features over 250 solar panels, open concept to maximize natural light, private and open work areas, full kitchen, fitness center, shaded patio, and outside multi-sports space.

"For 15 years, we have successfully provided medical IT services- this expansion represents just that. CompuTech City's modern and environmentally friendly headquarters were custom designed with our employee's feedback and technology needs in mind. Our headquarters are a reality, due to the trust of our clients and the hard work of our team- and for that we are grateful. Happy employees, happy clients." said Saurin Patel, CompuTech City's CEO.

Currently headquartered in Seminole County, CompuTech City specializes in IT services for the medical industry. The company provides a variety of services like managed services, network security, medical billing, cloud/hosting services, HIPAA compliance, EMR support, project management and other IT solutions, to its more than 600 clients.

The Orlando Economic Development Commission (EDC) worked with the company to provide connections to vital partners including the State of Florida, Enterprise Florida, Seminole County and the City of Longwood.

"CompuTech is a great company that recognizes Seminole County is as an exceptional place to locate its people and capital. We are thrilled the company is expanding here," said Seminole County Chairman John Horan.

"We are very excited to welcome CompuTech City to Longwood as they join the growing number of firms and businesses that are choosing to call Longwood home," said Longwood Mayor Joe Durso. "The impact to our community of nearly \$4 million in annual economic output and the creation of over 60 permanent jobs in STEM careers cannot be understated. We look forward to working with the CompuTech City team as they continue to grow in the coming years."

"CompuTech City's decision to build their headquarters in Longwood is a huge win for the region, the county and our city. We will be diligent in continuing our efforts in working with them and assisting in their growth," said Longwood's Economic Development Manager Tom Krueger.

"We are excited to keep this home-grown company in our region," said Crystal Sircy, Orlando Economic Development Commission executive vice president. "CompuTech City is a great example of the success companies can find in Orlando because of the variety of real estate options, business-friendly climate, and talented tech workforce."

### **About CompuTech City**

CompuTech City is a team of knowledgeable healthcare IT engineers dedicated to provide relationship-driven tech support exclusively to the Medical industry. Since 2002, they have been a key component in their client's success as they understand their individual and industry specific needs. This enables them to provide world-class medical IT services to practices, doctors and their staff- all around the Central Florida area.

### **About the Orlando Economic Development Commission (EDC)**

The Orlando Economic Development Commission (EDC) is a not-for-profit, public-private partnership on a mission to aggressively attract, retain and grow jobs for the Orlando region while advocating, championing, and educating in support of efforts to improve competitive position. The EDC serves Orange, Seminole, Lake and Osceola counties and the City of Orlando – a region of about 4,000 square miles and 2.2 million people. Since its start in 1977, the EDC, with the support of its community partners, has assisted thousands of companies locate and expand in the four-county Orlando region.
