Preferred IT Vendor Program

## Your Certified eClinicalWorks Vendor-Nationwide

### About CompuTech City

Established in the year 2002, CompuTech City provides IT Infrastructure Management & EMR Implementation Services encompassing planning, optimization, integration and management of IT services, thereby enabling Medical Practices to keep their mission-critical applications and IT infrastructure running 24x7. Our partnerships with leading industry players like Dell, Citrix, Microsoft, VMware, Storage Craft and others, helps us to provide flexible, Cost effective and powerful options to our clients.

### CompuTech City Specializes In HIT

HIT is technology that is in a category of its own. CompuTech City & eClinicalWorks offers the latest technologies for your computing platform, with proactive managed support for your entire network. Medical technology is extremely progressive & requires knowledgeable technicians to keep up with its demand. CompuTech City can handle every aspect of your HIT needs, as if you had a whole staff of experienced technicians, for the fraction of the cost. With our Experienced HIT Pro certified Engineers by your side, you don't have to worry about any IT Infrastructure related issues, allowing you to spend more time with your patients & Practice Medicine.

### CompuTech City & eClinicalWorks

CompuTech City has a long history of successfully implementing e-ClinicalWorks at many practices & provides all the services ranging from finding the right EMR to Planning and implementation, support and managed services. With such a successful track record in EMR implementation, CompuTech City was awarded with eClinicalWorks Preferred IT Vendor status. The eClinicalWorks Preferred IT Vendor Program enables IT companies, deemed highly reliable by eClinicalWorks standards, to aid them with eClinicalWorks implementation and ongoing IT support needs. Each year CompuTech City maintains its eClinicalworks preferred vendor status by successful deployment of eClinicalworks at many practices nationwide, not to forget the exceptional support thereafter by an experienced team of EMR HIT engineers.

- ◆ Network Security
- ◆ e-CW Installation & Testing
- ◆ Training & Go-live

**“Choosing CompuTech City was a great move for us.** Any time we have a problem they know exactly what the problem is, they notify me when a problem is found, and fix these problems quickly. As for server and network health, since being with CompuTech City we have been in wonderful IT health. Our server had crashed a few years back but CompuTech City was there to assist us with data recovery and restored our server to full health. We see them as one of the top medical IT providers.”

**Leslie Cheney ( Office Manager Center for Digestive Endoscopy )**

**eCW Clients -** ◆ 51 Practices ◆ 123 Plus Provider ◆ Client Range 1 Provider to 30 Plus Providers
